Rise in demand for high-speed connectivity devices systems, increase in expansion of data centers, and growth in demand for structured cabling due to technological advancements drive the growth of the global structured cabling market. On the other hand, advent of wireless communication systems restrains the market growth. Nevertheless, growth in IT and Telecom sector and high investment in Asia-Pacific region are anticipated to present lucrative opportunities for the market players in the approaching time.

Covid-19 Scenario:

□ Business and manufacturing units across various countries happened to suffer during the initial phase of the lockdown due to the outbreak of the pandemic. Suspended facilities and

disrupted supply chains were the major factors that affected the market growth during this phase.

□ However, most of the regions have either recovered or are recovering along with the mandatory precautionary measures to curb the spread. Also, vaccination drives across the region are now pacing up which is further assisting the industry growth.

The report analyzes the market based on cable type, industry vertical, and region. Based on offering, the hardware segment held the largest market share in 2020, with more than two-thirds of the global structured cabling market. However, the software segment is expected to showcase the highest CAGR of 8.6% during the forecast period.

Based on type, the CAT 6 segment accounted for highest market share in 2020, contributing to more than two-fifths of the global structured cabling market. On the other hand, the CAT 6A segment is anticipated to manifest the highest CAGR of 7.70% during the forecast period.
