

# Equipment Leases Inc. Enters the International Equipment Funding Arena

*Up to \$50-Million Available Per Project in Six Countries*

SALT LAKE CITY, UT, UNITED STATES, September 23, 2021 /

EINPresswire.com/ -- Equipment Leases Inc., located in Salt Lake City, Utah, announced today that they and their network of lenders have funding resources available for new equipment projects in 6-countries, including the United States, Canada, Mexico, Western Europe, Japan, and China.

Steven K. Hansen, the CEO of Equipment Leases Inc., stated, "[Our International lending](#) resource sets us apart from the majority of all independent leasing companies and banks which are unable to manage equipment leasing projects outside of the USA." As the global economy continues to become much more reliant on each other, the need for multi-national organizations to have a secondary funding source capable of financing substantial projects abroad is significant.

Equipment Leases recently launched an informative website with eight forms of equipment funding and business loans, including an exceptional program designed [exclusively for insurance carriers](#). Making funding available to 16 major industries, including Manufacturing, Construction, Food Processing, Packaging, Renewable Energy and LED Lighting, Medical, and Material Handling, to name a few. We are able to fund projects as low as \$100,000 up to a max per project of \$50-Million.

Funding Today For Equipment, Expansion, Inventory and More

If You Can Dream it - We Can Fund It to \$50-million

We Specialize In Funding Manufacturing Equipment and Robotics

For most businesses, the thought of entering the capital markets can be daunting, so we have included tutorial blogs on our website designed to educate any business owner on the best practices to get their project approved and funded quickly.

About Equipment Leases Inc.

Equipment Leases Inc. and its network of lending partners have been serving the SMB markets since 2013, providing business owners with the capital needed to acquire millions in new equipment across multiple industries and time zones. With their principal office located in Utah, they also have a sales satellite office strategically placed in more than ten major cities around the country.
