EINPresswire.com/ -- According to the
new market research report '[Sanitary
Paper Product Global Market Report](#)

[2021: COVID-19 Impact And Recovery](#)' published by The Business Research Company, the sanitary paper product market size is expected to grow from \$67.67 billion in 2020 to \$71.77 billion in 2021 at a compound annual growth rate (CAGR) of 6.1%. The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$90.89 billion in 2025 at a CAGR of 6%. Awareness among people for hygiene and cleanliness is expected to drive the sanitary paper products manufacturing market.

The sanitary paper product market consists sale of sanitary paper products and related services. Sanitary paper product manufacturing establishments convert the sanitary paper or wadding into sanitary paper products like napkins, toilet paper, paper towels, facial tissues, disposable diapers, sanitary napkins and tampons.

Trends In The Global Sanitary Paper Product Market

Recycling of paper is expected to be a key trend in sanitary paper product manufacturing. In the paper industry, there is a rise in recycling due to environmental issues like deforestation and increase of waste. Recycled tissues require 50% less water, 64% less energy and make 74% less air pollution, which not only decreases the cost for the companies but also supports sustainability of environment. For instance, in 2019, a Canadian tissue paper manufacturer
