*The Business Research Company's  
Carpooling Global Market Report 2021:  
COVID-19 Growth And Change*

LONDON, GREATER LONDON, UK,  
September 23, 2021 /

EINPresswire.com/ -- According to the  
new market research report  
'Carpooling Global Market Report:  
COVID-19 Growth And Change'

published by The Business Research Company, the [carpooling market](#) is expected grow from \$13.06 billion in 2020 to \$20.56 billion in 2021 at a compound annual growth rate (CAGR) of 57.4%. The growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$35.29 billion in 2025 at a CAGR of 14%. Government initiatives to minimize the carbon emissions is likely to drive the carpooling market.

The carpooling market consists of sales of carpooling which is also known as shared mobility is the most technologically advanced transportation system that enables users to book a short distance ride as and when needed. The sales consist of revenues generated by establishments that are primarily engaged in the booking of the car by online carpooling platforms and app-based carpooling.

Trends In The Global Carpooling Market

Automobile manufacturers are increasingly venturing into mobility services to cater to the growing demand for car-pooling services. For instance, major automobile manufacturers, namely BMW and Daimler have merged their car-sharing ventures to expand geographically in 2018. Similarly, in February 2020, Tesla announced plans to launch ride-sharing application.

Automakers investing in carpooling applications will contribute to the growth of the market.
