

Plastic Waste Management Industry Analysis by Key Players, End-User, Size, Growth Rate, Regions and Forecast to 2027

*Market Size – USD 32.46 Million in 2019,
Market Growth – at a CAGR of 2.8%*

VANCOUVER, BC, CANADA, September 23, 2021 /EINPresswire.com/ -- The global [plastic waste management market](#) is projected to reach value of USD 40.80 Billion by 2027, according to a current analysis by Emergen Research. The key factors influencing the market are maintaining the organization's reputation, promoting the concept of sustainable development , reducing the usage of plastics Plastic destroys fertility of soil. Plastics contain harmful chemicals, which increases death rates of all living organisms on the planet.

The report offers a thorough examination of the competitive landscape of the industry with regards to company profiles, product portfolio, manufacturing and production capacity, gross profit margins, revenue generation, financial standing, and global market position. It provides data about the key technological advancements, product developments, and strategic business decisions such as mergers & acquisitions, product launches, joint ventures, collaborations, partnerships, and business expansion plans companies are adopting right now. The report also provides an analysis of the driving and restraining factors influencing the growth of the market.

Prominent Players Analyzed in the Report:

Veolia Environment, SUEZ, Waste Management, Inc, Republic Services, Waste Connections, Inc, Biffa, Stericycle, Clean Harbors, Covanta Holding Corporation, and United Plastic Recycling, Inc.

Market Segmentation:

For the purpose of this report, Emergen Research has segmented the global plastic waste management market based on polymer type, source, service, application, and region:

Polymer Type Outlook (Revenue: USD Billion; 2017–2027)

Polyethylene (PE)

Polypropylene (PP)

Low-density Polyethylene (LDPE)

Polyethylene Terephthalate (PET)

Polyvinyl Chloride (PVC)

Source Outlook (Revenue: USD Billion; 2017–2027)

Residential

Industrial

Commercial

Others

Service Outlook (Revenue: USD Billion; 2017–2027)

Recycling

Energy Recovery

Landfills

Application Outlook (Revenue: USD Billion; 2017–2027)

Packaging

Construction

Textile

Building & Construction

Others

The research study also offers insights into various regulatory frameworks and evaluates the growth of the industry in each key region of the world. The report also provides an assessment of the micro and macro-economic factors influencing the growth of the market in the mentioned regions. The global Plastic Waste Management market is segmented into the following based on the key regions of the world:

North America (U.S., Canada)

Europe (U.K., Italy, Germany, France, Rest of EU)

Asia Pacific (India, Japan, China, South Korea, Australia, Rest of APAC)

Latin America (Chile, Brazil, Argentina, Rest of Latin America)

Middle East & Africa (Saudi Arabia, U.A.E., South Africa, Rest of MEA)

Key Benefits of the Global Plastic Waste Management Market Report:

Comprehensive analysis of the changing competitive landscape

Assists in decision making processes for the businesses along with detailed strategic planning methodologies

The report offers an 8-year forecast estimation and assessment of the Global Plastic Waste Management Market

Helps in understanding the key product segments and their estimated growth rate

In-depth analysis of market drivers, restraints, trends, and opportunities

Comprehensive regional analysis of the Global Plastic Waste Management Market

Extensive profiling of the key stakeholders of the business sphere

Detailed analysis of the factors influencing the growth of the Global Plastic Waste Management

Market

Table of Content:

Chapter 1. Methodology & Sources

1.1. Market Definition

1.2. Research Scope

1.3. Methodology

1.4. Research Sources

1.4.1. Primary

1.4.2. Secondary

1.4.3. Paid Sources

1.5. Market Estimation Technique

Chapter 2. Executive Summary

2.1. Summary Snapshot, 2019-2027

Chapter 3. Key Insights

Chapter 4. Plastic Waste Management Market Segmentation & Impact Analysis

4.1. Plastic Waste Management Market Material Segmentation Analysis

4.2. Industrial Outlook

4.2.1. Market indicators analysis

4.2.2. Market drivers analysis

4.2.2.1. Increasing level of Pollution due to plastic waste

4.2.2.2. Promoting the concept of Sustainable Development

4.2.2.3. Rules and Regulations formed by the Government Authorities

4.2.3. Market restraints analysis

4.2.3.1. Extensive involvement of plastics in the life

4.2.3.2. Cheap mode for packaging.

4.3. Technological Insights

4.4. Regulatory Framework

4.5. Porter's Five Forces Analysis

4.6. Competitive Metric Space Analysis

4.7. Price trend Analysis

4.8. Covid-19 Impact Analysis
