Rising global population has led to increasing number of construction and building activities across the globe, in turn, driving demand for materials and chemicals. Availability of advanced

Reports And Data

finishing materials, environmentally sustainable raw materials and chemicals, and growing progress of plastics industry has significantly contributed to the revenue growth of the market. Chemicals and materials industry is a crucial part of the world economy and produces over 70,000 products that are needed across various end-use industries. Consumer products such as soaps, detergents, and cosmetics, along with electronic gadgets, automobiles, and paints & cosmetics, among others are in high demand across the globe and are majorly dependent on various types of chemicals and materials. International corporations are actively engaged in developing sustainable products to reduce carbon emissions and pollution and ensure safe operations of the facilities. These key factors have significantly contributed to market revenue growth and is expected to continue to do so going ahead.

For the purpose of this report, Reports and Data has segmented the global nonwoven fabrics market on the basis of product, platform, end user, and region:

By Polymer type Outlook (Revenue, USD Billion; 2018-2028)

PP

PE

PET

Wood pulp

Rayon

Others

By Layer Outlook (Revenue, USD Billion; 2018-2028)

Single-layer

Multilayer

By Function Outlook (Revenue, USD Billion; 2018-2028)

Disposable

Non-disposable

By Technology Outlook (Revenue, USD Billion; 2018-2028)

Spunbond

Wet laid

Dry laid

Others (electrostatic spinning and flash-spun)

By Application Outlook (Revenue, USD Billion; 2018-2028)

Hygiene

Medical

Filtration

Automotive

Consumer products

Building & Construction

Others

Key companies are focused on mergers and acquisitions, joint ventures, collaborations, partnerships, product launches, brand promotions, and R&D activities among others to cater to growing global demand and gain a strong foothold in the market. The report also analyzes the presence of key companies, their ventures, and investment and funding opportunities in key regions of the world including North America, Europe, Asia Pacific, Latin America, and Middle East & Africa.

The study covers critical information and factual data about the Nonwoven Fabrics industry along with an in-depth statistical analysis of the market drivers, limitations, growth prospects, opportunities, and threats. The report also covers SWOT analysis and Porter's Five Forces analysis to offer better understanding of the competitive landscape of the global Nonwoven Fabrics market.

Key Features of Global Nonwoven Fabrics Market:

The report offers a deep insight into the market with expert data insights from the industry experts and analysts

Dedicated focus on market growth and restraining factors

Thorough analysis of the market segments includes product types, application spectrum, technology, end-user, and other key segments

Current and emerging market trends and growth prospects

A detailed market forecast covering 8 years from 2021 to 2028
