

# Caustic Soda Market Projected to Reach \$55.8 Billion by 2026 | In-Depth Analysis with Top Key Players

---

*Application and rise in R&D activities for development of new products and production processes have boosted the growth of the global caustic soda market*

PORTLAND,, OREGON, UNITED STATES, September 23, 2021 /EINPresswire.com/ -- Allied Market Research recently published a report, titled, "Caustic Soda Market by Production Process (Membrane Cell, Diaphragm Cell, and Others) and Application (Organic Chemical, Inorganic Chemical, Alumina, Pulp & Paper, Soap & Detergent, Water Treatment, and Others): Global Opportunity Analysis and Industry Forecast, 2019–2026". According to the report, the global caustic soda industry was pegged at \$36 billion in 2018 and is projected to reach \$55.8 billion by 2026, registering a CAGR of 5.5% from 2019 to 2026.

## Chief reasons for market fluctuations

Rise in demand for caustic soda from application and surge in R&D activities for development of new products& production processes are the major factors driving the growth of the global caustic soda market. However, hazards associated with caustic soda impedes the growth to certain extent. On the contrary, emerging chemical sector is expected to create lucrative opportunities in the near future.

## The membrane cell segment to rule the roost through 2026

Based on production process, the membrane cell segment held the largest share in 2018, accounting for more than two-fifths of the global caustic soda market. This is due to its increase in use for organic chemicals applications. On the other hand, the diaphragm cell segment is expected to portray the fastest CAGR of 6.2% during the forecast period. This is due to the rise in use of diaphragm cell in pulp & paper, and water treatment process.

The organic segment dominated the market

Based on application, the organic chemicals segment held the lion's share in 2018, contributing to nearly one-fifth of the global caustic soda market. This is due to increase in demand for caustic soda in U.S and Canada. However, the pulp and paper segment is expected to manifest the fastest CAGR of 6.9% during the forecast period. Increasing use of Caustic soda in chemical pulping processes such as in sulfate and sulfite is driving the growth of this segment.

Asia-Pacific held the largest share in 2018, followed by North America

The global Caustic soda market across Asia-Pacific dominated in 2018, contributing to more than half of the market. Moreover, the region is expected to register the fastest CAGR of 6.0% during the study period. This is due to rise in number of health-conscious consumers in this region. The strong base of caustic soda production and increasing consumption is expected to offer growth to the market. On the other hand, North America held the second largest market share in terms of revenue in 2018.

Major market players

AkzoNobel  
Occidental Petroleum Corporation  
BASF  
FMC Corporation  
Arkema Group  
Dow Chemical Company  
Solvay SA  
BAYER AG  
Tata Chemicals Limited  
Eastman Chemical Company
