The report provides a detailed segmentation of the global LED market based on product type, device configuration, technology, end-user, application and region. Based on product type, it is categorized into LED Lamps, LED Fixtures, based on device configuration, it can be categorized as Pinned LED, Chip on Board LED, Surface-mounted LED and Others. The technology segment is further segmented into basic LED, high brightness LED, OLED, Ultra Violet LED and polymer. The end-user segment is divided into residential, commercial, industrial, outdoor and architectural. The application segment is divided into automotive, general lighting, backlighting, signal & signage and others. An extensive analysis of each segment and sub-segment is offered in the research using tabular and graphical formats. This analysis would be valuable in determining the highest revenue generating and fastest growing segments and adopting various strategies to achieve growth during the forecast period.

The research provides a detailed competitive scenario of the global LED market for each region. Regions analyzed in the study include North America (United States, Canada and Mexico), Europe (Germany, France, the U.K., Russia and Italy), Asia-Pacific (China, Japan, Korea, India and Southeast Asia), South America (Brazil, Argentina, Colombia), Middle East and Africa (Saudi Arabia, UAE, Egypt, Nigeria and South Africa). The data and statistics are helpful in determining strategies and exploring untapped potential in new markets. AMR also provides customization services for a specific region and segment as per the requirements.
