

# Greenhouse Film Market Size, Development Strategy, Historical Analysis, Competitive Landscape And Forecast to 2027

*Increasing need to enhance agricultural productivity in developing economies is driving the global greenhouse film market.*

VANCOUVER, BC, CANADA, September 24, 2021 /EINPresswire.com/ -- The global [greenhouse film market](#) is likely to reach value of USD 13.15 Billion by 2027, according to a current analysis by Emergen Research. This growth of the market can be attributed to the growing focus of the horticulture industry on sustainable production and higher profit margins. Manufacturers of greenhouse films are trying to provide lightweight and durable polyethylene materials. Increasing research and development activities to produce materials that provide an outstanding balance of high tensile strength, light transmission, tear resistance, and light weight are expected to drive the market for greenhouse films in the near future.

The report is attuned to the recent COVID-19 crisis and its impact on the global market. The report explores the present and future impact of the pandemic and provides an insight into the market scenario in the post-pandemic world. The report offers an in-depth analysis of the market size, market share, and market growth and its estimation through the forecast years on the basis of the COVID-19 crisis.
