

# Air scrubber Market Anticipated to Reach \$4,306.4 Million by 2030- Exclusive Research Report by AMR

*COVID-19 Pandemic disrupted the entire world and affected many industries. Get detailed COVID-19 impact analysis on the Air Scrubber Market*

PORTLAND, OR, UNITED STATES,  
September 27, 2021 /

EINPresswire.com/ -- An [air scrubber](#) eliminates air pollution, volatile organic compounds (VOCs), surface pollutants, pet dander, smells, and dust. The air scrubber continually creates negative ions as air passes through the ducting system. Those negative ions are dispatched to locate and return contaminants floating in air that are too tiny to be caught by a standard air filter.

The global air scrubber market size was valued at \$1,883.3 million in 2020, and is projected to reach \$4,306.4 million by 2030, registering a CAGR of 8.5% from 2021 to 2030.

To strengthen their market position, competitors in the air scrubber market use strategic moves such as mergers, acquisitions, and market initiatives. For instance, in June 2020, Daikin Industries, Ltd. and WASSHA Inc., have recently formed Baridi Inc. to operate an air conditioner subscription business. Daikin Industries and WASSHA have partnered to take use of Daikin's air conditioners, which are recognized for their high durability, efficiency, and minimal environmental effect as well as the company's capacity to develop service networks.

## Key Market Players

Advanced Air Technologies Inc.  
Amaircare Corporation  
Camfil AB

Croll Reynolds, Inc.  
Daikin Industries, Ltd.  
Honeywell International, Inc.  
Novatek Corporation  
Parker Hannifin Corporation  
SPX Corporation  
Waves Aircon Pvt. Ltd.

## Key Benefits For Stakeholders

The report provides an extensive analysis of the current and emerging air scrubber market trends and dynamics.

In-depth emerging air scrubber market analysis is conducted by constructing market estimations for key market segments between 2021 and 2030.

Extensive analysis of the emerging air scrubber market is conducted by following key product positioning and monitoring of top competitors within the market framework.

A comprehensive analysis of all the regions is provided to determine the prevailing opportunities.

The global emerging air scrubber market forecast analysis from 2021 to 2030 is included in the report.

## Key Market Segments

### By Product Type

Dry  
Wet

### By Filter Type

HEPA filter  
Activated carbon filter  
Dehumidifier filter  
Others

### By End-user Industry

Food & beverage  
Metal processing  
Agriculture  
Construction  
Others

By Region

North America  
Europe  
Asia-Pacific  
LAMEA
