VTOPS Pick Fill Seal Dry Powder Auger Packaging Machine

According to the chief engineer of the Fill-by-Weight pick fill seal packaging machine, this machine with the highlights are the following:

## 1, Outstanding Accuracy:

First of all, the highlight worthy of introduction is the outstanding accuracy. The packing accuracy exceeds than 99.7%. For example, if you pack 1500 grams in per premade pouch, the error will be within 3 grams, or even better.

## 2, Packing Weight:

If the size of the premade pouch is within the applicable size of the pick fill seal [packing machine](#), the maximum packaging weight can reach 3000 grams, and the smallest packing weight can reach 500 grams or less.

### 3, Double Auger Dosing Filler:

Both [auger filler machine](#) are equipped with easy-to-clean hopper, which is the ideal choice for the customers with need of fast cleaning. As you know, the greater advantage of the double auger dosing filler system is the increase in speed. The two auger filler heads cooperate with each other, and there are many different ways of cooperation. Such as: Filling-Weighing-Filling, Filling-Filling, and so on.

### 4, Changeover Pouches:

If the client have several premade pouches bags with different widths. Congratulations, this will be another perfect ideal reason for you to choose this machine. Because this pick fill seal packaging machine is available switch the premade pouches of different widths within a few minutes.
