The mining support activities market consists of sales of mining support services and related goods by entities (organizations, sole traders and partnerships) that perform support activities on a contract or fee basis for coal, metal and nonmetallic mineral (except fuels) mining. Support activities include exploration of minerals, drilling, draining of mines and other support activities.

#### Trends In The Global Mining Support Activities Market

GIS technology is increasingly being used by mining companies to monitor critical factors such as sustainability, geological composition and compliance. GIS systems capture, record, evaluate and present spatial or geographic data. GIS integrates exploration datasets such as geophysical images, geochemistry, geologic maps, radiometric surveys, boreholes, and mineral deposits leading to efficient discovery of new mineral deposits. This technology also provides 3D visualization tools as it integrates data from various data sources. They are also used in allied industries such as production, mine closure and reclamation. For instance, according to GISGIG, the global GIS market was valued at \$6.3 billion in 2017 and expected to reach \$12.7 billion by 2024.

#### [Global Mining Support Activities Market Segments:](#)

The global mining support activities market is further segmented based on type, service provider type and geography.

By Type: Coal Mining Support Activities, Metal Mining Support Activities, Nonmetallic Minerals Mining Support Activities

By Service Provider Type: Independent Contractors, Companies

Subsegments Covered: Coal Mining Drilling Services, Coal Mining Exploration Services, Coal Mining Draining Services, Other Coal Mining Support Activities, Metal Mining Drilling Services, Metal Mining Exploration Services, Metal Mining Draining Services, Other Metal Mining Support Activities, Nonmetallic Minerals Mining Drilling Services, Nonmetallic Minerals Mining Exploration Services, Nonmetallic Minerals Mining Draining Services, Other Nonmetallic Minerals Mining Support Activities

By Geography: The global mining support activities market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, the Asia-Pacific mining support activities market accounts for the largest share in the global mining support activities market.
