

Commercial Real Estate Brokerage and Management Market Growing at a CAGR of 7.2% from 2021 to 2030

A rise in urbanization in developing countries such as India, Brazil, and others and increase in disposable income of population are drive the market growth.

PORTLAND, OR, UNITED STATES,
September 29, 2021 /

EINPresswire.com/ -- The [commercial real estate brokerage and management market](#) has witnessed

significant growth over the past decade, owing to rise in urban

population, migration of population from rural areas to urban population, and adoption of advanced technologies such as Internet of Things (IoT) and Artificial Intelligence (AI) in real estate brokerage management services, which fuels the growth of the commercial real estate brokerage and management.

The commercial real estate brokerage and management market size is expected to reach \$424.4 billion by 2030, from \$209.9 billion in 2020, registering a CAGR of 7.2% from 2021 to 2030.

The commercial real estate brokerage and management market is mainly driven by rise in urbanization in developing countries. In addition, growth in population has led to rise in demand for commercial properties. Moreover, several government policies such as Golden Visa, low interest rate on loans, and affordable housing schemes also propel the market growth.

Covid-19 Impact Analysis

COVID-19 pandemic halted the manufacturing and construction facility for a short-term, owing to prolonged lockdown implemented in countries such as Japan, the U.S., China, India, and

others. In addition, COVID-19 pandemic has shut-down, construction activities, owing to the prolonged lockdown in major countries such as the U.S., China, Japan, India, and Germany. This hampered the growth of the commercial real estate brokerage and management industry significantly in 2020.
