

Pet Food Packaging Market Will Boast Developments in Global Industry by 2028

Growing demand for advanced material for packaging of pet food is a significant factor influencing growth of the market.

NEW YORK, NY, UNITED STATES,
September 29, 2021 /

EINPresswire.com/ -- The global pet food packaging market is expected to value USD 19.72 billion by end of 2028 from USD 10 billion in 2020, expanding

at a CAGR of 4.5% over the forecast period. This growth of the [pet food packaging market size](#) is attributable to the factors such as increasing inclination of people toward pet adoption coupled with willingness to pay for adopting better convenience for them. Additionally, the increasing income level globally, simple and convenience food and packaging, and changing lifestyles are driving growth of the global pet food packaging market.

The US Food and Drugs Administration (FDA) regulations is increasingly granting permission for improved and safer products alike concern over human food. In addition, the animal lovers are increasingly choosing informative, attractive, and protective products. The key players are looking to fulfill the demands of consumers by offering intelligent packaging, which is fueling growth of the global pet food packaging market. Such factors are estimated to boost demand during next few years and offer several opportunities for growth during the foreseeable future.

The global pet food packaging market comprises key players including Mondi Plc, Amcor Plc, Constantia Flexibles, Sonoco Products Company, and Huhtamaki OYJ.

Based on food type Outlook (Revenue, USD Billion; 2018-2028)

Dry food

Wet food

Pet treats

Others

By Region Outlook (Revenue, USD Billion; 2018-2028)

North America

Europe

Asia Pacific

MEA

Latin America

Key findings from the report:

By the packaging type, the bags segment is anticipated to hold a substantial share in the market for pet food packaging over the forecast period. This segmental growth is attributable to the growing demand for bags for the ease offered during handling coupled with low cost of production.

By food type, the dry food segment is anticipated to hold the significant share in the pet food packaging market and to retain over the forecast period.

The plastic segment is anticipated to lead the pet food packaging market in terms of revenue and likely to retain its dominance over the forecast period. Owing to its benefits, the plastic segment is estimated to witness growth at a fastest CAGR over the forecast period.

By animal type, the cat food segment in the pet food packaging market is projected to expand at a significant CAGR over the forecast period. This growth is attributable to the increasing inclination of pet owners toward adopting cats and adopting expensive cat foods.

Regionally, North America is anticipated to lead the global market for pet food packaging over the forecast period owing to robust demand from the developed countries including the US and Mexico. Additionally, rising inclination toward adoption of pets coupled with changing lifestyles and growing capacity of expending more on pets are driving growth of the global pet food packaging market.

The report emphasizes the following key questions

- Q.1. What are the most lucrative and promising growth prospects for the market?
- Q.2. Which sectors are expected to deliver a high growth rate and which industry aspects come into play in this advancement?
- Q.3. Which geographies are estimated to exhibit the highest growth and the underlying causes?
- Q.4. Which factors are impacting the future of the market and what are the driving factors?
- Q.5. What are the hurdles and challenges curtailing the industry's growth in the forecast period?
