

# The Advocate Urges a Navy Veteran with Lung Cancer in New Hampshire to Call Attorney Erik Karst of Karst von Oiste About Compensation If While in the Navy He Had Significant Exposure to Asbestos

MANCHESTER, NEW HAMPSHIRE, USA,

November 19, 2021 /

EINPresswire.com/ -- The New Hampshire US Navy Veterans Lung Cancer Advocate is appealing to the wife or adult son-daughter of a Navy Veteran who has just been diagnosed with lung cancer to please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 if

The Advocate is appealing to a Navy Veteran who has lung cancer to call attorney Erik Karst of Karst von Oiste at 800-714-0303 if while in the navy he had significant exposure to asbestos."

Veterans Lung Cancer  
Advocate*

while in the navy their loved one had significant exposure to asbestos on a navy ship, submarine or at a navy shipyard. Financial compensation for a person like this might exceed \$100,000, it does not matter if the person smoked cigarettes and the financial claim does not involve suing the navy as attorney Erik Karst of Karst von Oiste is always happy to discuss.

What does matter is that a Navy Veteran who has recently been diagnosed with lung cancer and who prior to 1982 had heavy to extreme exposure to asbestos in the navy

can recall some of the specifics of how, where and when their asbestos exposure occurred. It is this incredibly important information that becomes the foundation for a compensation claim. Most people like this do not realize the \$30 billion dollar-asbestos trust funds were set up for them too-as attorney Erik Karst of Karst von Oiste is always happy to discuss anytime at 800-714-0303. High risk occupations for asbestos exposure in New Hampshire include the US Navy, shipyard workers, manufacturing workers, electricians, welders, plumbers, machinists, mechanics, power plant workers, paper mill workers, auto/truck brake technicians and construction workers.

[www.karstvonoiste.com/](http://www.karstvonoiste.com/)

Important Note from the US Navy Veterans Lung Cancer Advocate: "If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact. Frequently compensation for people like this might exceed \$100,000." <https://USNavyLungCancer.Com>

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers. <https://www.cdc.gov/cancer/lung/statistics/index.htm>.

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware.

However, asbestos exposure lung cancer can happen in any state including California, New York, Texas, Florida, Massachusetts, Connecticut, Pennsylvania, New Jersey, Illinois, Wisconsin, Minnesota, Nebraska, New Mexico, North Dakota, Wyoming, Utah, Montana, Idaho, Arizona, Washington, Oregon or Alaska.
