The Business Research Company's Automotive Halogen Bulbs Global Market Report 2021 - COVID-19 Impact And Recovery

LONDON, GREATER LONDON, UK, October 4, 2021 /EINPresswire.com/ -- Lower cost benefits of halogen in headlights over other headlight types are expected to increase the demand for the [automotive halogen bulbs market](#). These bulbs are used in projector bulbs in headlights and incorporate low replacement costs and lesser energy consumptions as compared to incandescent bulbs. Furthermore, properties such as decent lifespan of around 1000 hours under normal conditions and government regulations for more efficient bulbs will continue to drive growth of the automotive lighting market.

The global automotive halogen bulbs market size is expected to grow from \$12.40 billion in 2020 to \$12.58 billion in 2021 at a compound annual growth rate (CAGR) of 1.5%. The global automotive lighting market growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive
