

Global Hand Dryers Market Trends, Strategies, And Opportunities In The Hand Dryers Market 2021-2030

The Business Research Company's Hand Dryers Global Market Report 2021: COVID-19 Growth And Change

LONDON, GREATER LONDON, UK,
October 5, 2021 /EINPresswire.com/ --
According to the new market research report '[Hand Dryers Global Market Report 2021: COVID-19 Growth And Change](#)' published by The Business

Research Company, the hand dryer market size is expected grow from \$0.75 billion in 2020 to \$0.88 billion in 2021 at a compound annual growth rate (CAGR) of 17.3%. The growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$1.36 billion in 2025 at a CAGR of 11%. The rapidly growing hospitality industry, such as the rise in hotels and restaurants, boosted the growth of the hand dryers market, driven by the need to meet cleanliness requirements in the food services and hospitality sector.

The hand dryers market consists of sales of hand dryers and related services. Hand dryers are cost-effective, energy-efficient and eco-friendly devices that are extensively adopted in restaurants, hotels, offices, and malls as a replacement to towel. Hand dryers are electronic machines used for drying hands in public bathrooms that works either by pressing a button or automatically using a sensor. These are highly responsive and are equipped with fast reacting sensors with maximum energy efficiency for instant reaction.
