COVID-19 Scenario Analysis:

1. To subdue the spread of COVID-19, respective governments have shutdown day-to-day business operations by implementing a full-scale lockdown. Labour shortages and delays in project completion are a few factors hindering the wealth management industry, resulting in a decline in production.

2. Wealth management market forecast has been significantly impacted by the outbreak. New projects throughout the world have stalled, which have significant demand for wealth management market.

3. The factories have struggled to manufacture and assemble new devices as workers have stayed in their homes while the already available devices in various warehouses cannot be transported due to current rules & regulations, which disrupted the supply chains.

4. The impact of COVID-19 on wealth management market is temporary as just the production and supply chain is stalled. Once the situation improves, production, supply chains, and demand for these products are gradually going to increase. This is expected to provide opportunities for companies operating in the market to think about ways of increasing production, research about technologies, and improve current products.
