[Alkuri Global Acquisition Corp.](#) (NASDAQ: KURI, KURIU and

KURIW) ("Alkuri"), a special purpose acquisition company, has filed its definitive proxy statement/prospectus with the Securities and Exchange Commission (the "SEC") and established September 30, 2021, as the record date in connection with the previously announced proposed business combination with Babylon Holdings Ltd ("Babylon"), a world leader in digital-first healthcare.

"We're incredibly proud to deliver the opportunity for Alkuri's shareholders to support the fastest growing digital healthcare company we've seen -- public or private," said Rich Williams, CEO of Alkuri. "In the first half of this year, Babylon grew its revenues by 472% while improving margins and continuing to deliver world-class healthcare by realigning the focus and incentives of care on comprehensive, long-term health and well-being. With the support and commitment of Babylon's existing shareholders, we are bringing this transaction to our investors at a price that is a clear discount to its peers in our view, despite the fact that Babylon is growing as much as 10 times faster than others in digital healthcare. We believe this creates an incredibly attractive entry point for a category-defining business in a \$10 trillion global sector."

"Babylon's mission is to make quality healthcare accessible and affordable for every person on

Earth,” said Ali Parsa, Babylon’s Founder and CEO. “The extraordinary growth of our company, including the 472% revenue growth we recently announced for the first half of 2021, shows that many partners and clients share our vision to transform the current models of healthcare delivery. The members we serve have shown time and time again that regardless of whether someone is rich or poor, or whether they live in central London, rural United States or a developing country like Rwanda, they all desire smarter, better healthcare. So in Babylon we are working to re-engineer virtually every touch point through the healthcare continuum to deliver a better and more scalable value proposition to all. The Alkuri team have been great partners in this process and we look forward to working alongside them and our new stockholders to realize our mission and deliver another chapter of strong returns.”
