

# Waste Management Equipment Market Demand, Trend, Growth Opportunities, 2020–2027

*The factors such as increase in urban population, surge in residential and non-residential construction, and rise in environmental awareness drive the market.*

PORTLAND, OR, UNITED STATES,  
October 6, 2021 /EINPresswire.com/ --

The [waste management equipment market](#) has witnessed significant growth over the past decade, owing to rise in urban population, surge in amount of waste generated, and stringent government regulations. However, huge initial capital investment and lack of awareness regarding sustainable waste management practices in developing countries are anticipated to hinder the growth of the waste management equipment market.

The global waste management equipment market size was \$45,756.9 million in 2019, and is projected to reach \$55,637.9 million by 2027, registering a CAGR of 4.1% from 2020 to 2027.
