Increase in demand for concrete pumps, owing to the implementation and planning of infrastructure projects is anticipated boost the global concrete pumps market growth during the forecast period. Furthermore, the growth of the global concrete pumps market is majorly driven by development in residential, commercial, & industrial construction sectors. However, volatile economic conditions in Latin America limit the growth of the concrete pumps market.

## Covid-19 Impact Analysis

The outbreak of COVID-19 has a negative impact on the manufacturing and production of concrete pumps in the first quarter of 2020, and is likely to hamper the market growth throughout the year. This has further affected the demand for concrete pumps from developing countries, including India, Brazil, Vietnam, and India, thereby halting the production activities. In

addition, the disruption of supply chains is causing hindrance in manufacturing of the concrete pumps around the globe.
