

# US Navy Veterans Lung Cancer Advocate Is Urging a Navy Veteran-Person Who Has Lung Cancer and Who Had Asbestos Exposure in the Navy-Work Before 1982 to Call Attorney Erik Karst of Karst von Oiste about Compensation

WASHINGTON , DC, USA, November 24, 2021

/EINPresswire.com/ -- According to the US Navy

Veterans Lung Cancer Advocate, "If your husband or dad is a Navy Veteran or person who has recently been diagnosed with lung cancer anywhere in the United States and prior to 1982 he had significant exposure to asbestos in the navy or at work-please call attorney Erik Karst of the law firm of Karst von Oiste at 800-714-0303 to discuss what might turn out to be substantial compensation. Financial compensation for a person like this might exceed \$100,000 and it does not matter if the person smoked cigarettes.

“

As Erik Karst of Karst von Oiste will discuss at 800-714-0303 the asbestos trust funds were set up for people who before 1982 had asbestos exposure in the navy-work-and who now have lung cancer.”

*US Navy Veterans Lung Cancer Advocate*

"We want a Navy Veteran or person who prior to 1982 had heavy exposure to asbestos and who has recently been diagnosed with lung cancer and or their family members to know attorney Erik Karst of the law firm of Karst von Oiste is always happy to help a person like this-including during the holidays. As Erik Karst of Karst von Oiste is

always happy to discuss anytime at 800-714-0303 the \$30 billion dollar-asbestos trust funds were set up for people who decades ago had asbestos exposure in the navy or at work-and who recently have been diagnosed with lung cancer.

"In order to receive the best possible compensation results it is very important for the person with lung cancer to do their best to recall the specifics of their asbestos exposure in the navy or at work. The more specific the information about specific instances of asbestos exposure the

better the compensation as attorney Erik Karst of Karst von Oiste is always happy to discuss anytime at 800-714-0303."

High-risk workplaces for asbestos exposure include the US Navy, shipyards, power plants, public utilities, manufacturing factories, chemical plants, oil refineries, mines, smelters, pulp and paper mills, aerospace manufacturing facilities, offshore oil rigs, demolition construction work sites, railroads, automotive manufacturing facilities, or auto brake shops. With lung cancer caused by asbestos exposure the lung cancer may not show up until decades after the exposure. <https://USNavyLungCancer.Com>

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware.

However, a US Navy Veteran or person with mesothelioma or asbestos exposure lung cancer could live in any state including New York, Florida, California, Massachusetts, Pennsylvania, New Jersey, Maryland, Illinois, Wisconsin, Minnesota, Oklahoma, Texas, Iowa, Georgia, Kansas, Nebraska, North Dakota, Wyoming, Colorado, New Mexico, Utah, Nevada, Arizona, Idaho, Washington, Oregon or Alaska.
