Key Market Trends:

Major drug corporations across the world have keen interest to invest in generic injectable manufacturing facilities with the objective of cutting down corporate expense rates, improving manufacturing units, and building their presence in developing economies such as China and India.

In North America, the new duty changes in the U.S. have led to lower corporate taxes and aided pharmaceutical organizations to bolster their production capacities of generic injectable.

For instance, in 2020, an arrangement to contribute \$465 million was reported by Pfizer, Inc. to fabricate an injectable plant in Michigan. This development is a part of Pfizer's plan to invest \$5 billion in the U.S.-based capital tasks.

Comprehensive competitive analysis and profiles of major market players, such as

Pfizer, Inc.

Baxter International
