PISCATAWAY, NEW JERSEY, UNITED STATES, October 22, 2021

/EINPresswire.com/ -- Indians have a distinct choice of utensils, [Home Appliances](#), and kitchen essentials, quite different from what you get to see in the US markets. Stainless steel is a major feature among utensils and appliances. Desi Basket brings you the touch of India with their latest product launch. They are now offering [home and kitchen appliances](#) and utensils alongside the other available options. Indian brands and brands that are popular in India are all available in the product line.

With the new additions, you get Oster Blender Blades For Osterizer Blenders, Cello casseroles with stainless steel interior coating, Hot-pots, and more. The premium quality of steel with branded products makes it a top choice among buyers. Similar casseroles are not easily available in the American market, for which Indians have to place an order from outside the country. But with Desi Basket, the products can reach your doorstep without worry.

Tawas that are difficult to find in the US but are a constant part of Indian cooking is now available with Desi Basket. The newest product line includes iron Tawas that are fit for cooking in high flames. You can cook dosas, puris, chapatis, and all other Indian meals which do not cook well with non-stick pans. Steel pressure cookers with a greater cavity of 3lt and 5lt are not easily available in the US. Desi Basket has solved the worry and brought the all-rounder cookers where you can easily cook daal, rice, vegetables, and khichdi.

Unlike the food processors that you get in the US, Indian mixers have a unique specialty. They are fit for grinding hard spices which go into the meal in dried form. Steel dining sets, hot boxes, and much more that are commonly a constant part of households in India is now easily available in the USA.

Every home appliance present in this new product line comes with a guarantee and warranty certificates for the convenience of our customers.
