According to the new market research
report 'Reactive & Other Adhesives
Global Market Report 2021: COVID-19

Impact And Recovery' published by The Business Research Company, the [reactive & other adhesives market](#) is expected to grow from \$6.47 billion in 2020 to \$6.72 billion in 2021 at a compound annual growth rate (CAGR) of 3.9%. The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$7.2 billion in 2025 at a CAGR of 2%. The adhesive market is expected to benefit from growth in the automobiles industry during the forecast period. There is a drive for production of lightweight automobiles which is leading to an increase in demand for adhesives and sealants. Thus, increased use of plastics in automobiles is expected to increase the demand for reactive adhesives during the forecast period.
