

KAL and Identité join forces to fight ATM fraud

KAL and Identité have partnered to add additional factors of authentication using personal mobile devices.

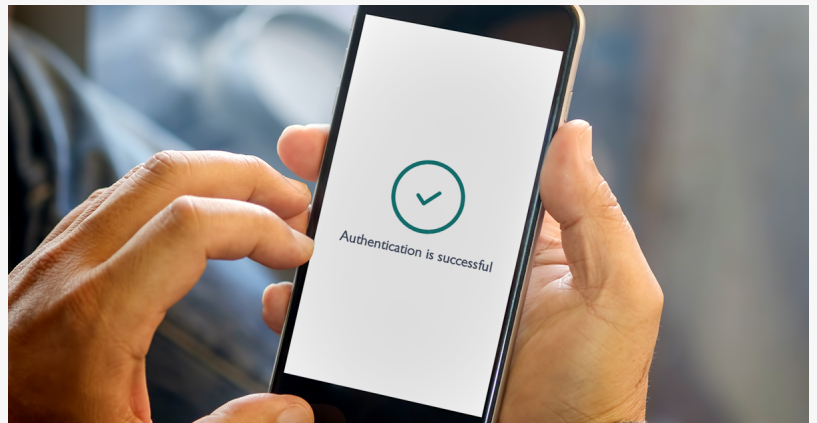

CLEARWATER, FL, USA, October 11, 2021 /EINPresswire.com/ -- KAL, the leading independent ATM software company, and authentication solution specialist Identité® have joined forces to eliminate bank ATM fraud. This has been achieved by integrating KAL's world-class ATM software with Identité's simple and secure NoPass™, a passwordless authentication solution.

KAL's Business Development Manager for North America, Rob Hunter, said the integration of KAL software with NoPass is a significant step forward in the global fight against ATM fraud.

Identité®

We believe authentication should be simple, secure and without passwords.

Enhanced ATM Authentication

“

This is eliminates ATM card skimming and the first step in creating a true Cardless & Touchless ATM experience that makes for a safer user action at ATMs.”

John Hertrich, CEO Identité

“Banks have long been asking for improved security and a simplified user experience at the ATM, and the integration of Identité's NoPass technology with KAL software addresses this need.”

John Hertrich, CEO of Identité, added: “This is the first step in creating a true ‘Cardless & Touchless ATM’ experience that eliminates card skimming and makes for a safer user

action at ATMs. NoPass can also be used to authenticate account holders when they call into the

bank's call center."
