

Curcumin Market 2021-26: Size, Share, Price Trends and Research Report

SHERIDAN, WYOMING, UNITED STATES, October 11, 2021 /EINPresswire.com/ -- According to IMARC Group's latest report, titled "[Curcumin Market: Industry Trends, Share, Size, Growth, Opportunity and Forecast 2021-2026](#)," the global curcumin market grew at a CAGR of around 9% during 2015-2020. Looking forward, the market is expected to exhibit strong growth during 2021-2026.

We are regularly tracking the direct effect of COVID-19 on the market, along with the indirect influence of associated industries. These observations will be integrated into the report.

Curcumin is a naturally occurring yellow-colored bioactive compound commercially obtained from turmeric plant through dried rhizome. It is rich in zinc, calcium, magnesium, iron, and potassium and has anti-inflammatory, anti-oxidative, anti-fungal, and anti-bacterial properties. The consumption of curcumin helps in minimizing fatigue, exhaustion, inflammation in the liver, along with treating various medical ailments. It is widely used as a yellow food colorant and additive in numerous food products.

Market Trends

The growing prevalence of chronic medical ailments, such as osteoarthritis, obesity, [cardiovascular](#) diseases (CVDs), [diabetes](#), cancer, etc., is primarily driving the demand for curcumin. Moreover, the expanding utilization of curcumin across the food and beverages, nutraceutical, and cosmetic sectors is also propelling the market growth. Additionally, the rising consumer health consciousness, along with the changing dietary preferences, is further augmenting the demand for curcumin. In line with this, the growing consumer inclination towards ayurvedic and herbal supplements that include curcumin for treating eye infections, leech bites, sore skin, bruising, swelling, etc., is also catalyzing the product demand on a global

level.
