Along with getting released on various major music streaming platforms, the remix was also uploaded on YouTube, with a music video that will be following soon. With the artist's popularity rising each passing day, the streams on the song are increasing at a rather impressive rate. The remix drives with an infectious beat centered around a hypnotic melody that takes the listener into the middle of an all-out rhyme fest of four MCs with Mugz anchoring the rear, bringing the total up to five. filled with catchy beats and groovy tunes. The instrumental blended with the lyricism of talented and sharp MCs delivers something that's much needed and seriously lacking into today's musical landscape. Apart from working on "Direction (Remix)" for the past couple of months, the artist has also been working on his highly anticipated LP. Being under the works for quite some time now, the brand new LP is set to be released this fall.

The album is titled "The Renaissance Project" and is produced by TRM – one of the most well-known and talented producers in the industry. TRM worked in collaboration with OhMugz and

produced the entire project from start to finish. Once it gets released, this most-awaited album will be available on all major music streaming/downloading platforms around the world. Although the release date is still pending, it is scheduled for the upcoming fall. In addition to the upcoming LP, OhMugz has previously released an EP titled "Dark Age", also produced by TRM. With a total of 6 tracks on the EP, it was released earlier in 2021. OhMugz was also featured in a single titled "Untold Tales" back in 2020.

The artist plans on continuing his musical journey and exploring as an artist. He wants to tour the world, meet his fans, and inspire others along his journey to success.
