Available in industry-standard sized pillows, socks, booms along with custom sizes, Green Boom's products are made from patent-pending biomass up-cycling technologies that use sustainably sourced agricultural wastes and textiles. Led by a team with broad chemical engineering experience, Green Boom created a technology that converts renewable, biodegradable and low-value agricultural materials into water-repellent, oil-only absorbents.

"JP Consulting is excited to provide our customers with

Green Boom's revolutionary green products," said Jaroslaw Polanski, Managing Partner. "These

absorbents are very unique based on their impact on the environment along with the ease of use.”

JP Consulting is a consulting and implementation company providing enterprise services, which are in a dynamic development phase, in a crisis, or the structure of a company and its functions should be rebuilt. JP Consulting makes changes fast, professional and, most importantly, in the most cost-effective way. The leadership focuses on operational, marketing and sales tasks without engaging in internal customer relationships.
