

# Global Organic Poultry Market Size And Organic Poultry Market Growth Opportunities

*The Business Research Company's  
Organic Poultry Global Market Report  
2021 : COVID-19 Growth And Change*

LONDON, GREATER LONDON , UK,  
October 13, 2021 /EINPresswire.com/ --

According to the new market research report 'Organic Poultry Global Market Report 2021: COVID-19 Growth And Change' published by The Business

Research Company, the [organic poultry market](#) is expected to grow from \$7.26 billion in 2020 to \$7.67 billion in 2021 at a compound annual growth rate (CAGR) of 5.6%. The growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$10.35 billion in 2025 at a CAGR of 8%. Consumer awareness about the health benefits of organic food including organic poultry has seen a significant increase and is driving the organic poultry market in a positive direction.

The organic poultry market consists of organic poultry products and related services used to raise poultry birds. Organic poultry birds such as boiler, organic layer hens are fed organic feed or non-synthetic diet and are raised in an open environment protected from climatic extremities. Organic poultry is consumed in various food processing units, restaurants, eateries, animal compounds, and households. Organic poultry does not involve the use of antibiotics, hormones and feed made from other animal parts.

Trends In The Global Organic Poultry Market

To meet the ever-increasing need for improved and more efficient organic poultry services, companies operating in organic poultry market are rapidly adopting new market dynamics and focusing primarily on enhancing technologies to address the rising demand of safe and improved poultry services. For instance, in 2019, Transport Genie Ltd., a Canadian company

involved in transportation of animals partnered with Prodavi SA, an integrated poultry company based in Switzerland, to conduct field trials using Transport Genie smart sensors on poultry transport trucks. Transport Genie smart sensors monitors micro-climate conditions of live poultry during the transport of livestock from farm to their destination with real-time alerts and uses blockchain technologies to keep an electronic record of activities throughout the transportation value chain. The transport genie sensors ensure the safety of poultry during the transit across Canada, improving the productivity in the organic poultry market.
