Making real progress"

Pedro Villagran Garcia

Currently, Mexican mining authorities are operating at a very slow pace due to the pandemic, but we have been assured that operations will soon be restored to its normal status.

The fact that Minerales Tamino SA de CV filed a complaint with the Fiscalia General de la Republica in a very opportune fashion, denotes that the Mexican government must abide to mining law and assist us in properly completing our exploration program.

Mexico has a mining history in excess of 500 years and has welcomed foreign investment for several decades. We will continue to provide additional information on the Status of this Arbitration Case. Our Exploration activities on the other 2 projects will proceed as planned.

Here to Serve Holding Corp. was compensated a total of 40 million common shares of TINO, and it has been instrumental in assisting us in the completion of this pivotal aspects in order to successfully develop our projects.
