

# Thermal Interface Materials Market Share 2021: Industry Overview, Growth, Trends, Opportunities and Forecast till 2026

*Looking forward, IMARC Group expects the market to grow at a CAGR of around 10% during 2021-2026.*

SHERIDAN, WYOMING, UNITED STATES, October 13, 2021 /EINPresswire.com/ --

According to IMARC Group's latest report, titled "[Thermal Interface](#)

[Materials Market](#) Share: Global Industry Trends, Size, Growth,

Opportunity and Forecast 2021-2026", the global thermal interface materials market grew exhibited strong growth

during 2015-2020. Thermal interface materials (TIMs) are utilized to facilitate the dissipation and transfer of heat in electronic devices. They assist in increasing thermal conductivity, filling spaces between the mating surfaces and addressing both heat transfer and mechanical fixation problems. As a result, they are widely utilized in the manufacturing of semiconductor packages, automobile components, and power electronics across the globe.

Significantly increasing demand for efficient electronic devices represents one of the primary factors fueling the growth of the market. Apart from this, TIMs are extensively used in the production of portable, compact, energy-efficient light-emitting diodes (LEDs). They are also employed in electronics like music systems and interior automation components for minimizing energy consumption and greenhouse gas (GHG) emissions. Other major factors, including the rising need for seamless connectivity, numerous technological advancements like the development of nano diamonds and the growing popularity of the Internet of Things (IoT), are anticipated to drive the market further. Looking forward, IMARC Group expects the market to grow at a CAGR of around 10% during 2021-2026.

As the novel coronavirus (COVID-19) crisis takes over the world, we are continuously tracking the

changes in the markets, as well as the industry behaviors of the consumers globally and our estimates about the latest market trends and forecasts are being done after considering the impact of this pandemic.

#### Competitive Landscape with Key Players:

3M Company  
Dow Inc.  
Henkel AG & Co. KGaA  
Honeywell International Inc.  
Indium Corporation  
Kitagawa Industries America Inc.  
Laird Technologies Inc.  
Momentive Performance Materials Inc.  
Parker-Hannifin Corporation  
Zalman Tech Co. Ltd.

#### Market Segmentation:

##### Breakup by Product Type:

Tapes and Films  
Elastomeric Pads  
Greases and Adhesives  
Phase Change Materials  
Metal Based Materials  
Others

##### Breakup by Application:

Telecom  
Computer  
Medical Devices  
Industrial Machinery  
Consumer Durables  
Automotive Electronics  
Others

##### Breakup by Region:

North America (United States, Canada)  
Europe (Germany, France, United Kingdom, Italy, Spain, Others)  
Asia Pacific (China, Japan, India, Australia, Indonesia, Korea, Others)

Latin America (Brazil, Mexico, Others)

Middle East and Africa (United Arab Emirates, Saudi Arabia, Qatar, Iraq, Others)

About Us

IMARC Group is a leading market research company that offers management strategy and market research worldwide. We partner with clients in all sectors and regions to identify their highest-value opportunities, address their most critical challenges, and transform their businesses.

IMARC's information products include major market, scientific, economic and technological developments for business leaders in biotechnology, advanced materials, pharmaceuticals, food and beverage, travel and tourism, and nanotechnology industries. We also provide cost model and manufacturing setup project reports through Syndicated Analytics, a subsidiary of IMARC Group.

Our offerings include comprehensive market intelligence in the form of research reports, production cost reports, feasibility studies, and consulting services. Our team, which includes experienced researchers and analysts from various industries, is dedicated to providing high-quality data and insights to our clientele, ranging from small and medium businesses to Fortune 1000 corporations.
