

KSA and UAE Hand Tools Market Expected to Reach \$0.48 Billion by 2027

*KSA and UAE Hand Tools Market
Technology, Future Trends, Market
Opportunities 2027*

PORTLAND, OR, UNITES STATES,
October 13, 2021 /EINPresswire.com/ --
The [KSA and UAE hand tools market](#)
forecast was valued at \$363.20 million
in 2019, and is projected to reach
\$476.80 million by 2027, registering a
CAGR of 4.7% from 2020 to 2027.

The KSA and UAE hand tools market is majorly driven by sales of hand tools to individuals and professionals for new construction and maintenance in construction, automobile, oil & gas and other industries. In addition, the high market price of power tools leads to increase in sales of hand tools. However, the power tools manufacturers are developing and launching low-cost power tools in the market, which acts as a restraint to the KSA and UAE hand tools market growth.
