

Abyde partners with Direct Dental Alliance to deliver comprehensive HIPAA compliance solutions

TAMPA, FLORIDA, UNITED STATES, October 20, 2021 /EINPresswire.com/ -- Today, Abyde announced their latest partnership with Direct Dental Alliance (DDA) that will help deliver their user-friendly HIPAA compliance software solution to a growing group of independent dental providers.

This latest collaboration with Direct Dental Alliance further proves Abyde's continual efforts in helping dental practices achieve complete compliance in the simplest way possible. By providing access to not only an industry-leading software but an unmatched team of HIPAA experts, this partnership gives DDA members a complete solution to their HIPAA stress.

“

We know our members will find ongoing value in the Abyde solution and allow them to spend more time focused on their practice.”

Brent Troxell, Vice President of Operations at Direct Dental Alliance

Abyde's software solution is the easiest way for any sized dental practice to implement and sustain comprehensive HIPAA compliance programs. The revolutionary approach to HIPAA compliance guides providers through mandatory HIPAA requirements such as the Risk Analysis, HIPAA training for doctors and staff, managing Business Associate Agreements, customized policies and more.

“As the government continues to show a clear focus on non-compliance, having a complete and ongoing HIPAA

program in place is more important now than ever,” said Matt DiBlasi, President of Abyde. “Teaming up with Direct Dental Association will provide Abyde's intuitive compliance solution to even more independent dental providers, giving them much needed peace of mind that their compliance program is up to standards.”

“Direct Dental Alliance is thrilled to work with Abyde in providing our members with the tools and support necessary to achieve complete compliance,” said Brent Troxell, Vice President of

Operations. "We know our members will find ongoing value in the Abyde solution and allow them to spend more time focused on their practice."
