of the law firm of Karst von Oiste at 800-714-0303 to discuss what might turn out to be significant compensation. Financial compensation for a person like this could exceed \$100,000, it does not matter if the person smoked cigarettes, and the claim does not involve suing the navy or in most instances their former employer.

"What does matter is the person who now has lung cancer must be able to recall the specifics of how, where and

when they were exposed to asbestos prior to 1982 in the navy or at work. Most people who call us are surprised to learn the \$30 billion dollar-asbestos trust funds were set up for them too. If the individual-we have described sounds like your husband or dad--please call attorney Erik Karst of the law firm of Karst von Oiste anytime at 800-714-0303. Erik Karst shares our passion about making certain a person who now has lung cancer and who decades ago had navy or workplace exposure to asbestos gets compensated-as he is always happy to discuss."

High-risk work groups for exposure to asbestos in Nevada include Veterans of the US Navy, a civilian employee at Nellis Air Force Base, a worker at one of Nevada's half dozen-plus power plants, shipyard workers who moved to Nevada, oil refinery workers, steel mill workers, miners, factory workers, public utility workers, miners, plumbers, electricians, auto mechanics, machinists, and construction workers. Note

most people diagnosed with asbestos exposure lung cancer or mesothelioma in Nevada were exposed to asbestos in another state. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's. www.karstvonoiste.com/

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers.
