

Blackpledge Network Reimagines Wealth Building for the Black and Brown Community

MCKINNEY, TX, UNITED STATES,
October 14, 2021 /EINPresswire.com/ --

[Economic](#) empowerment has long been a stumbling block in the Black community, with Black unemployment rates hovering at 16 percent, more than double that of white counterparts. Regardless of whether the United States' economy is on an upswing or falling, Black Americans, mostly, still get the crumbs in our society. One revolutionary financial platform is changing this narrative. Introducing Blackpledge Network, proclaiming that it is time for Black and Indigenous people to have a seat at the table. Founded in 2014, this forward-thinking digital phenomenon focuses on a network of People Helping People in a collective space, while investing in each other's dreams and uplifting all communities Blackpledge Network is involved with.

Americans, while Black households have just one-eighth the wealth of white households.” This is an astounding truth, but not surprising to those Black families who face these historical inequities every day. Positioned uniquely, Blackpledge Network can help redefine the path for the history makers of tomorrow.
