MARYLAND, GAITHERSBURG, UNITED STATES, October 14, 2021 /EINPresswire.com/ -- The Global

Waste Management Software - Global Market Outlook (2019-2027)

Waste Management Software Market is accounted for $8.75 billion in 2019 and is expected to reach $18.75 billion by 2027 growing at a CAGR of 10.0% during the forecast period. Some of the key factors propelling market growth are increasing smart city initiatives, strict environmental protection regulations, and rapid urbanization. However, the high initial cost is the restraining factor for the growth of the market.

By technology, the Wi-Fi segment is expected to grow at a significant market share during the forecast period owing to its features like faster deployment and end-to-end visibility. Based on geography, North America is anticipated to hold considerable market share during the forecast period which is attributed to the growing environmental concerns among people of the major economies.
