

Greenpenny a Gigawatt Sponsor of MnSEIA's Gateway to Solar Conference

Industry experts meet in Minneapolis to advance renewable energy transformation

MINNEAPOLIS, MINNESOTA, UNITED STATES, October 14, 2021

/EINPresswire.com/ -- Greenpenny will

be a gigawatt sponsor at the Minnesota Solar Energy Industries Association (MnSEIA) Gateway to Solar Conference. The event will be held next week on October 18th and 19th in Minneapolis, Minnesota and will highlight the long-term investments in people, technologies, and policies that

“

Solar energy adoption requires access to cost effective capital and financing for project installations in an economically viable way for everyone involved.”

*Jason MacDuff, greenpenny
V.P.*

will advance the renewable energy transformation.

Conference attendees include solar installers and developers, utilities, non-profits, government agencies and law-makers from Minnesota and across the country.

Greenpenny will serve on panel discussion next Monday “The panel conversation, ‘Capital & Financing Options for Solar Energy Investments’ will be a forum to discuss professional services available to support those investing in solar energy and the economic benefits renewable energy can provide,” said MacDuff. “Solar energy adoption requires access to cost effective capital and financing for

project installations in an economically viable way for everyone involved. At greenpenny, we’re working to do our part by financing solar energy and storage systems to power homes, businesses small and large, non-profits, and farms in the Midwest.”

Other programming will include state and federal policy reviews, technical sessions, NABCEP installer continuing education, and a Minnesota legislature interactive discussion. Attendees can learn more and register at www.mnseia.org/gateway-conference.

Member FDIC | An Equal Housing Lender

Greenpenny Key-Points

- From a community with one of the highest solar energy adoption rates, per capita, in the nation.
- Residential and commercial solar financing is available in Iowa, Illinois, Minnesota, Missouri, and Wisconsin.
- Deposit services are FDIC Insured and available for people across the nation. Money deposited in greenpenny is secure, earns interest, and is only used to finance renewable energy systems and carbon reducing efficiency projects – no fossil fuels.
- Customers access easy-to-use, hi-tech online and mobile banking platforms with zero ATM fees worldwide – ever. And greenpenny bankers are available at 888-GPENNY0 (888-473-6690).
- We've financed hundreds of commercial and residential solar loan projects. And we'd like to do a lot more!
- We want to be a catalyst for positive change by helping people use their money as their voice for fiscal and environmental advocacy.
