key Highlights From The Report.

Ghana's Ministry of Health collaborated with Zipline, a US-based logistics service provider and a UAV manufacturer in April 2019 in order to launch a delivery drone service for helping medical suppliers across Ghana.

Accelerating demand for study as well as its corresponding development of lithium-metal batteries is anticipated to fuel growth of the drone delivery service market over the forecasted span. This is because in a single charge, a lithium-metal battery aids the drone to cover longer distances. Furthermore, the size of these batteries are half that of a lithium-ion battery and it can hold equal amount of charge as a bigger lithium-ion battery.

The market on a global scale is likely to become more competitive over the forecasted years as many companies from other industries are identifying the potential benefits of drone delivery.
