U.S. Advanced Wound Care

“

The U.S. Advanced Wound Care Market by Product (Infection Management, Exudate Management, Active Wound Care, Therapy Devices), Application (Chronic Wounds and Acute Wounds), and End User (Hospitals )”

*Allied Market Research*

Advanced wound care includes products that are used to treat chronic and acute wounds such as burns, ulcers, and postoperative wounds. Advanced wound care products such as hydrogels, hydrocolloids, film & foam dressings, and alginates keep wounds hydrated to facilitate rapid healing. Advanced wound care products provide solutions to patients suffering from chronic wounds by offering them reasonably priced and readily accessible products. Moreover, the report covers information on therapy devices, such as negative pressure wound therapies (NPWT), oxygen & hyperbaric oxygen equipment, electromagnetic therapy devices, electrical stimulation

devices, and pressure relief devices.

The wound patients with multiple comorbidities are at a high risk of infection of COVID-19. Moreover, hospitalization of these patients further requires a large percent of the cost of care. Thus, Federal, state governments, as well as payers have urged hospitals and providers to reduce utilization of non-essential health services and suggested to shift the site of necessary care to lower risk environments. In addition, market players are required to stay prepared for disruption from the pandemic mode. Moreover, various manufacturers are facing issues in the supply of their products.
