Bonzah.com owned by Pablow, Inc. (Pablow), an Insurtech startup based out of Iowa, is adding Personal Accident Insurance (PAI) and Personal Effects Insurance (PEI) to their rental car insurance product suite.

The addition of PAI and PEI to Bonzah's products will allow www.Bonzah.com to become a one-stop online shop for rental car insurance. Right now, car renters can already buy primary damage, primary liability and supplemental liability insurance from the Bonzah mobile app and website.

"We're launching Personal Accident and Personal Effect Insurance as part of our long-term commitment to provide affordable, easy, and convenient insurance coverage for rental car users," said Steve Sherlock, Co-Founder of Pablow Inc. d.b.a. Bonzah.com. "With the addition of PAI and PEI products, renters can have better, more comprehensive coverage."

At the bottom of the complex block, it says "Get That Covered Feeling with Bonzah.com".

Bonzah.com's Personal Accidental Insurance (PAI) provides 24-hour accident protection to the primary renter or sharer and their immediate family for a death while traveling in a Rented or Shared Vehicle during the entire period of the Rental Agreement. PAI covers both accidental loss of life and medical expenses, ensuring up to \$50,000 for renter loss of life and \$1,000 in medical insurance coverage.

Meanwhile, the Personal Effects Insurance (PEI) provides limited coverage for loss or damage to personal belongings due to theft of, damage to, or accidents involving a Rental or Shared Vehicle.

"As a heavy car rental user myself, I want to make sure that we at Bonzah live up to our promise of helping car renters get peace of mind through superior insurance products and services that they can conveniently buy online," adds Sherlock.

PAI and PEI will now be available for car renters to purchase on the Bonzah website at www.Bonzah.com. Customers can also download the app from the App Store, and choose from Bonzah's rental car insurance product suite.
