Research has shown that CBD has proven beneficial in relieving Chronic Pain, Insomnia, Anxiety and Depression, lingering Aches and Pain, including Back Pain, Arthritis, and some relief for Headaches. Director of Business Development for Resoma360, Mark Hemmings, made clear at a recent meeting with the press that the brand is committed to getting as many people the help they need and that a partnership with these medical professionals and facilities is a natural next step.

Robust efforts will be made to reach out to these professionals and facilities through direct outreach where they will be offered the opportunity to recommend the ReSoma360 brand or to become an authorized distributor of the company's products. The company intends to offer discounted rates to customers referred directly from these referral partners, in addition, those partners wishing to become distributors will be provided reduced rates on purchases along with ongoing education to answer customer's questions.

ReSoma360 offers an Infused Body Lotion and a Pain Relief Roll-On Infused with 500mg of CBD

and 125mg of CBG. The company is committed to providing high-quality, natural products that support overall health and wellness. For more information, visit [www.ReSoma360.com](https://www.ReSoma360.com/).
