Global eHealth Market (2021 to 2028) - by Type of Material, Application and Region

The growing need to curtail healthcare costs and the high prevalence of the chronic disease is driving the demand for the eHealth market

Emergen Research Logo

VANCOUVER, BC, CANADA, October 18, 2021 /EINPresswire.com/ -- Emergen Research has published a novel research report titled, "Global eHealth Market Forecast to 2028". The report sheds light on the current as well as upcoming market trends. The report offers precise information about pricing, capacity, value, gross revenue, and profit of the market. The primary aim of the report is to offer in depth details about market size, revenue growth and overall market dynamics to readers, stakeholders, companies to strengthen their share in the global eHealth market. It also provides in depth information about key factors, restraints, limitations, challenges along with various market segmentations such as product type, application and regional bifurcation.

The global eHealth market is forecasted to be worth USD 314.55 Billion by 2027, according to a current analysis by Emergen Research. The market is witnessing increased demand in the past years, owing to the surge in the prevalence of smartphones and the emergence of advanced technologies in the medical sector. Digital health has emerged as a triumphant venture, attracting several organizations and industries from outside the healthcare domain.

An increase in the need to curtail healthcare costs, rising government initiatives to support the usage of eHealth, the growing prevalence of chronic diseases, and a shift in patient-centric healthcare delivery will further drive the eHealth market demand. The technology provides cost-effective healthcare delivery in both developed and developing nations. The surge in awareness of sedentary lifestyles and growing disorders such as diabetes and hypertension will further augment eHealth market demand.

The report also offers regional level analysis and market estimation for the regions: North America, Europe, Asia Pacific, Latin America, and the Middle East and Africa.

Regional Outlook of eHealth Market:

North America
S.
Canada
Mexico
Europe
Germany
K.
Italy
France
BENELUX
Rest of Europe
Asia Pacific
China
India
Japan
South Korea
Rest of APAC
Latin America
Brazil
Rest of LATAM
Middle East & Africa
Saudi Arabia
A.E.
South Africa

Rest of MEA

For the purpose of this report, Emergen Research has segmented into the global eHealth Market on the basis of product and services, end-user, and region:

Product and Services Outlook (Revenue, USD Billion; 2017-2027)
eHealth Solutions
Electronic Health Records/Electronic Medical Records Solutions
Picture Archiving and Communication Systems & Vendor Neutral Archive Systems (PACS & VNAS)
Pharmacy Information Systems
Medical Apps
Laboratory Information Systems (LIS)
Personal Health Record & Patient Portals
Chronic Care Management Apps
Clinical Decision Support Systems
Telehealth Solutions
Healthcare Information Exchange (HIE)
Radiology Information Systems (RIS)
E-Prescribing Solutions
Cardiovascular Information Systems

Other Specialty Information Management Systems
eHealth Services
Remote Monitoring Services
Diagnosis & Consultation Services
Database Management Services
Treatment Services
Healthcare System Strengthening Services

End-User Outlook (Revenue, USD Billion; 2017-2027)
Pharmacies
Healthcare Payers
Healthcare Consumers
Healthcare Providers
Hospitals
Home Healthcare Agencies, Nursing Homes, and Assisted Living Facilities
Ambulatory Care Centers
Others End Users

Table of Content
Chapter 1. Methodology & Sources
1.1. Market Definition
1.2. Research Scope
1.3. Methodology
1.4. Research Sources
1.4.1. Primary
1.4.2. Secondary
1.4.3. Paid Sources
1.5. Market Estimation Technique
Chapter 2. Executive Summary
2.1. Summary Snapshot, 2019-2027
Chapter 3. Key Insights
Chapter 4. eHealth Market Segmentation & Impact Analysis
4.1. eHealth Market Material Segmentation Analysis
4.2. Industrial Outlook
4.2.1. Market indicators analysis
4.2.2. Market drivers analysis
4.2.2.1. Growing Need to Manage Regulatory Compliance Through the Use of eHealth Solutions

4.2.2.2. Need to Curtail the Escalating Healthcare Costs
4.2.3. Market restraints analysis
4.2.3.1. High Cost of Deployment and Maintenance of eHealth Solutions
4.3. Technological Insights
4.4. Regulatory Framework
4.5. Porter's Five Forces Analysis
4.6. Competitive Metric Space Analysis
4.7. Price trend Analysis
4.8. Covid-19 Impact Analysis
