leverages a white-labeled instance of GenieMD's unified virtual care platform and is expanding its use by incorporating the Remote Patient Monitoring elements of the platform - scaling their virtual services across their community of care.

COVID-19 has certainly forced health systems to rethink delivery of care models. Telehealth quickly moved from a "nice to have" to a "must have" clinical service offering. In the past 18+ months virtual care models have quickly advanced to a reimagined delivery of care model

incorporating Remote Patient Modeling, Chronic Care Management and soon Remote Therapeutics Monitoring. Each of these models are bundled into GenieMD's Unified Virtual Care platform, iVisit. Dr. Juan Ramos, CEO at Tu Salud Virtual, states, "Given our experience with GenieMD iVisit platform and testing the robust features of the RPM services, there is very high confidence it will further enhance the delivery of care model across our community of care."

GenieMD's rich integration of over 400+ medical devices allow our iVisit clients to provide personalized care programs to support the diverse needs of their patient population. "GenieMD is excited about the opportunity to further our partnership with Tu Salud Virtual by broadening

virtual care services in the Territory of Puerto Rico" said, Tom Foley, Chief Growth Officer of GenieMD. He continued, stating, "Remote Patient Monitoring and Chronic Care Monitoring bundled with different modalities of Telehealth services is a great extension of the care plan to advance a patient along the awareness to wellness continuum."
