Agile Readiness Assessment Market

PORTLAND, OR, UNITED STATES, October 18, 2021 /EINPresswire.com/ -- Increase in need to reallocate resources skillfully among enterprises and continuous changes in business needs are the major factor that drive growth of the market. In addition, rise in awareness about agile transformation among SMEs fuels the agile readiness assessment market growth. However, lack of technical expertise hampers the market growth. Furthermore, growth in adoption of various advance technologies such as internet of things (IoT) and machine learning in agile readiness assessment systems is expected to provide lucrative opportunities for the market.

COVID-19 Scenario Analysis:

• Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost all countries around the globe, with the WHO declaring it a public health emergency. The global impacts of the disease are already starting to be felt, however, it is least expected to affect the agile readiness assessment market in 2020.
• Though governments have imposed lockdowns to contain spread of the virus, businesses are expected to invest in agile services to become more efficient, which is expected to boost growth of the market.
