

Anti-Plagiarism Software Market Statistics 2021- Industry Sees Promising Growth in Coming Years

Rise in demand for data among industries and increase in need for unique data across various industries are the major key factors driving the growth of market.

PORTLAND, OR, UNITED STATES,
October 18, 2021 /EINPresswire.com/ --

Rise in standards of educational programs and supportive government initiatives for research institutes & educational sectors for adopting anti-

plagiarism software fuel the growth of the market. However, high cost of the software and availability of free anti-plagiarism software restrain the growth of the [anti-plagiarism software market](#). Furthermore, growth in use of internet of things (IoT) and technological advancements is expected to provide lucrative opportunity for the market.

Anti-Plagiarism Software Market

Major players include: Dupli Checker, Paper Rater, Indigo Stream Technologies, PlagScan GmbH, Plagiarisma Ltd., Plagiarism Checker X LLC, Quetext Inc., Septet Systems, Turnitin LLC, Ouriginal

COVID-19 Impact Analysis

- Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 180+ countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus are already starting to be felt have significantly affected the anti-plagiarism software market.
- To prevent the spread of coronavirus, governments of most countries have implemented lockdown. People are requested to stay back at their homes and work from their respected places. Educational institutes started providing online classes through various online platforms. Students are supposed to submit their online assignments and project reports on various websites for assessment, which increase the demand for the usage of anti-plagiarism software

by both students as well as educational institutes to check the authenticity of the assignments submitted. The increased usage of the software will create the demand for anti-plagiarism software, which will help to grow the anti-plagiarism software industry in the future.
