

Automotive Lubricants Dominate the Global Lube Consumption, Which in 2018 Reported Sales of Over 40 Million Tons

Automotive Lubricants Market Forecast, Trend Analysis & Competition Tracking - Global Market Insights 2019 to 2028

UNITED STATES, October 18, 2021 /EINPresswire.com/ -- The latest report by Fact.MR opines that automotive lubricants have witnessed plenty of developments in the past few years and have offered convenient enhancements. Over the forecast period, the market is set to witness a positive growth, and to gain remunerative momentum in emerging countries, thus giving an impetus to the automotive lubricants market.

Moreover, a study conducted by the International Energy Agency (IEA) reveals that, by the end of 2050, oil demand from road freight may increase by 5 million barrels per day. With the rising number of vehicles, and the development of the transportation sector, the global [market for automotive lubricants continues](#) to grow. Properties such as high-level thermal stability, low freezing point, and high boiling point are helping to improve the overall performance of the engine. These are factors that are likely to push the automotive lubricants market during the forecast period.

In the automotive lubricants market several expansion projects are in line by the prominent players such as Royal Dutch Shell PLC, ExxonMobil, Chevron, Total S.A., FUCHS, and others.

Bio-based Automotive Lubricants, A Key Market Trend

The study opines that due to adverse effects, the governments in many countries are taking stringent regulatory action to control the harmful impact on the environment caused by transportation-related activities. Governing bodies and international organizations are implementing new rules and regulations to reduce the carbon emission levels released from vehicles. Above mentioned circumstances are set to reduce the use of gasoline and diesel engine cars in the forecast period. For instance, in December 2015, the Paris climate conference put in optimistic efforts to maintain climate change by introducing several innovating technologies to limit greenhouse gas emissions. All these factors create new opportunities for bio-based and high-performance automotive lubricants.

Automotive Lubricants Market: Segmentation

Fact.MR has segmented the automotive lubricants market on the basis of lubricants, base oil, vehicle and region

Lubricants

- Engine Oil
- Gear Oil
- Brake Oil
- Grease
- Other Fluids

Base Oil

- Fully Synthetic Oil
- Semi-synthetic Oil
- Mineral Oil

Vehicle

- CV
- HCV
- Midsize Vehicles
- Compact Vehicles
- Premium Class Vehicles
- Luxury Vehicles
- Other vehicle types

Region

- North America
- Latin America
- Europe
- Japan
- APEJ

•MEA
