The financial opportunity within the pharmaceutical contract manufacturing market has been analyzed across the following segments:
 □ Type of Business Segment

Example highlights

This market is characterized by the presence of both established players and new entrants that offer end-to-end services, ranging from pre-formulation studies to regulatory support.

- USA:** Over time, outsourcing has become a popular strategy in the pharmaceutical industry, enabling developers to save costs. *Ex-Associate Director, a mid-sized CMO*
- USA:** CMOs invest exorbitant amount of money in equipment and technology, and must comply with strict regulatory standards. *President and Chief Executive Officer, a large CMO*
- USA:** Technical advances, such as the use of robots, process digitization and automation, have notably improved production processes. *Chief Executive Officer, a large CMO*
- USA:** Adoption of novel technologies are likely to expedite the development of innovative pharmaceutical products. *Vice President, a large CMO*
- USA:** Several large pharma companies also outsource various aspects of their business operations to optimize internal resource use. *Chief Executive Officer, a mid-sized CMO*
- USA:** The COVID-19 pandemic has brought a significant increase in the demand for contract manufacturing services. *Vice President, a mid-sized CMO*
- USA:** Advanced tools, such as network collaboration, impact analysis, scenario planning are important for a resilient supply chain. *Director of supply chain, a mid-sized pharmaceutical company*
- USA:** Healthcare has witnessed a rise in innovation to overcome the pandemic, mainly related to products development. *Vice President Business Development, a mid-sized healthcare company*
- USA:** For the more complex drugs, such as HPAPIs, customers tend to rely more on CMOs in Europe and the US, rather than the low-cost nations. *Senior Manager, a mid-sized CMO*
- USA:** However, for HPAPI, the available capacity to manufacture such drugs is limited, considering the growing demand for such products. *Vice President, a mid-sized CMO*
- USA:** Larger CMOs have widely dispersed capabilities, thereby, effectively catering to multiple international markets. *President, a mid-sized healthcare company*
- USA:** The contract services market for parenteral drugs is anticipated to witness significant growth in future, in terms of service revenues. *Managing Director, a large CMO*

Example Highlights

This market is characterized by the presence of both established players and new entrants that offer end-to-end services, ranging from pre-formulation studies to regulatory support.

- API
- FDF

- Type of API Manufactured
- Generics
- Originator

- Type of FDF Offered
- Oral Solids
- Parenteral
- Others

- Scale of Operation
- Clinical
- Commercial

- Type of Packaging Form Offered
- Bottles
- Blister
- Injectables
- Others

- Type of End-User
- Small
- Mid-sized
- Large

- Region
- North America
- Europe
- Asia-Pacific
- Latin America
- Middle East and North Africa

The Pharmaceutical Contract Manufacturing Market (3rd Edition), 2021-2030 report features detailed profiles of key service providers in this domain:

- AMRI Global
- Altasciences
- Cambrex
- Catalent
- DPT Laboratories
- Thermo Fisher Scientific
- Zenova Group

- Almac Group
- Corden Pharma
- Bresenius Kabi
- Glatt
- Hovione
- Recipharm
- Siegfried
- MIC Group
- Nectar Lifesciences
- Syngene
- WuXi AppTec

Table of Contents

1. Preface
2. Executive Summary
3. Introduction
4. Regulatory Landscape for Pharmaceutical Contract Manufacturers
5. Pharmaceutical CMOs: current market landscape
6. Regional capability
7. Company profiles
8. Make versus Buy Decision Framework
9. Mergers and Acquisitions
10. Recent Expansions
11. Capacity Analysis
12. Demand Analysis
13. Market Forecast
14. Key Insights
15. SWOT Analysis

16. Case Study: Comparison of Small and Large Molecules Drugs / Therapies

17. Concluding Remarks

18. Executive insights

19. Appendix I: Tabulated Data

20. Appendix II: List of Companies and Organizations
