Increase in the infrastructure development activities and superior properties associated with geogrid drives the growth of the geogrid market. However, lack of skilled workforce may hinder the market growth. On the other hand, surge in awareness and rise in number of R&D activities create new opportunities in the coming years.

Based on region, Asia-Pacific contributed to the highest share, accounting for more than two-fifths of the total market share in 2018, and will maintain its dominance throughout the forecast period. This region is also a fastest growing segment, registering a CAGR of 10.1% from 2019 to 2026.

Leading market players analyzed in the research include Ace Geosynthetics, Huesker Synthetic GmbH., Maccaferri Group - Seci SPA, Tenax SPA, Tensar Corporation, Glen Raven Inc., Low & Bonar PLC., NAUE GmbH & CO. KG, Koninklijke Ten Cate BV, and Wrekin Products LTD. They have adopted various strategies including expansion, joint ventures, collaborations, mergers & acquisitions, and others to gain a strong position and sustain in the market.

By Application

1. Road Industry
2. Railroad Stabilization
3. Soil Reinforcement
4. Others

Covid-19 scenario:

1. During the coronavirus pandemic, the revenue generated from soil reinforcement for geogrid market will be reduced for few months, however, will rebound quickly.
2. Investors who seek more safety during the economic turbulence are unable to continue their projects, and will hold all the projects until the lockdown is dismissed.
3. The migration of employees and laborers to their own countries will impact on the process.
