“

Why are there so many problems on our world? Are the children of the world going to be okay? Why is everyone getting so sick? If there is so much money in the world, why are there poor people? ”

Quinton Douglas Crawford

enthraling storybook designed to bring enlightenment to young minds by telling them a story of the past that allows them to visit and appreciate the different cultures in every continent. "Moochie the Soochie" is the creation of published author [Quinton Douglas Crawford](#), a wonderful person who is passionate about writing inspiring stories for children.

Crawford writes, "Moochie the Soochie Visits the Peace People is a children's book designed to take children on an enlightening journey through world history to visit historical figures and cultures on every continent in times

of peace. Among what will be learned are common words from fourteen languages."

Crawford's new book reminds young readers to become more appreciative when it comes to the various cultures that exist all over the world. It is awe-inspiring to me that brings everyone back to the past in times of calmness and serenity.

Thus, the author wants the readers to realize that despite all the burdens and differences, there will always be a modern hero within oneself who can fix the world no matter where they came from and no matter what their race is.
